# Plastisol Inks for Direct Print & Heat Transfer

## NPHO Series

### *High Opacity Direct Print Plastisol Ink*

The J&S Inks NPHO Series is formulated with our chemically advanced Easy Print technology that allows for simplicity and optimal performance on press. The economical line of press ready plastisol inks are designed for direct printing on 100% cotton and cotton/poly blends. The inks are formulated for maximum print speed with minimal ink build-up on the back of the screens when printing wet-on-wet.

**Product Features**

- Non-phthalate
- High opacity
- Easy Print technology for excellent press performance
- High speed with excellent wet on wet printing
- Will not dry in the screen or in the bucket
- CPSIA 2008 (Consumer Product Safety Improvement Act) compliant

## HS Series

### *Hot Split Transfer Ink*

Our HS Series hot split transfer inks are known for their outstanding opacity and performance. The HS Series maintains a low tack on press that allows for easy printing of multicolor transfers and allows for the transfer of very detailed designs. With a low gel temperature, excellent printability and a soft-hand feel, the HS series inks deliver exceptional results like no other transfer inks.

**Product Features**

- Excellent durability
- Easy Print technology for excellent press performance
- High opacity with very good coverage
- User and press friendly formulations
- Soft-hand feel
- Brilliant colors

## SOHT Series

### *Super Opaque Transfer Ink*

The SOHT series is a very opaque ink that is formulated to give the appearance of a direct print. These inks exhibit outstanding opacity even when printed on dark fabrics without a white underlay. SOHT inks are excellent on press and have been formulated to provide major improvements on printability over competitive inks.

**Product Features**

- Non-phthalate
- Super opaque inks, great on dark fabrics
- Easy Print technology for excellent press performance
- Heavy body
- Exhibits nice soft feel

**Also offered by J&S Inks:**

- Plastisol puff inks and bases
- SE Series for Special Effects Inks
- LB Series - Low Bleed Direct Print Plastisol Inks
- NPI Series - Non-phthalate Mixing System
- Pre-mixed standard colors
- PMS color matches available
- CPSIA 2008 (Consumer Product Safety Improvement Act) compliance
