

PC-333

press wash

DESCRIPTION

PC-333 is a super fast evaporating press wash designed for clean up of plastisol inks. May be used as a screen opener to reopen dried or clogged images and a press side cleaner for color changes, when saving the emulsion or during continuous printing. High solvency formula is great for use to remove pallet and belt printers' adhesive. PC-333 efficiently cleans screens without leaving any residue which allows for immediate tape adhesion.

ADVANTAGES

- Super fast evaporating
- Leaves no oily residue
- Non-flammable
- High solvency
- Low vapor pressure
- Safe on emulsions
- Safe on mesh

DIRECTIONS

Spray or wipe the affected area with PC-333 on the ink side of the screen. Continue to wipe the area, turning the towel frequently until dry. Before resuming printing, always test your print quality on test materials to ensure all residue has been eliminated.
