Nonacid Toilet Bowl Cleaner

DESCRIPTION

Bowl Kare is a highly efficient, non-acid toilet bowl cleaner. Product is a combination of cleaners, quaternary ammonium compounds, chelants and a pleasant lemon scent. Bowl Kare cleans and brightens porcelain while removing even the most stubborn stains. Leaves a residual "quat" barrier on surface to provide further protection from grim build up.

DIRECTIONS

To clean toilet bowls and urinals: Remove water from bowl with mop or by forcing water over trap. Squeeze water from mop and place mop in bowl. Coat bowl thoroughly with cleaner and swab ball all over, especially under the rim at water outlets. Flush toilet and rinse swab.

For daily cleaning of bath tubs, wash basins, shower stalls, drinking fountains, etc.: Dilute one part cleaner with 2 parts water and clean. Rinse thoroughly with water.

For daily cleaning of acid resistant stainless steel equipment and porcelain: Such as counter tops, refrigerators. Dilute one part cleaner with 2 parts water and clean. Rinses with water after cleaning. Follow with a dry cloth.

ADVANTAGES

- Nonacid Formula is Safe and Effective
- Safe for Use On Porcelain, Ceramic, Plastic & More
- Easily Removes Stubborn Stains
- Free Rinsing
- Industrial Strength
- Contains No Solvents or VOC's

GREAT FOR USE ON:
