Specially Formulated Low Temperature Cleaner

DESCRIPTION

FREEZER LOCKER CLEANER is a concentrated blend of freeze point depressants and surfactants which will quickly act on and remove soil accumulations which entrap soil, spoilage and malodors. Safe for use in temperatures down to -35°F. Safe for use on aluminum. Freezer Locker Cleaner is designed for easy cleaning of all areas of freezer lockers. Great for mopping freezer locker floors too.

DIRECTIONS

Before cleaning, remove as much accumulated ice and frost as possible. Product may be use undiluted to clean areas as low as -35°F. For greater economy, Freezer Locker Cleaner may be diluted 1:1 for use in areas with temperatures as low as 0°F and 1:2 for use in areas with temperatures as low as 20°F. Spray product solution directly on the surface to be cleaned with a low pressure sprayer and wipe surfaces using a brush, mop or sponge. Do not rinse to remove. Wipe with a dry cloth, squeegee or mop to remove all liquid. Use sufficient amount of Freezer Locker Cleaner to promote complete melting of any remaining ice accumulation.

ADVANTAGES

- **USDA authorized**
- **Designed for use in temperatures as low as -35°F**
- **No rinse required**
- **Phosphate free formula**
- **Concentrated formula provides economical use cost**

TYPICAL PRODUCT CHARACTERISTICS

Appearance -----	Clear, pale yellow liquid
Scent -----	Unscented
pH, concentrate -----	10.2
Specific Gravity -----	1.034
Weight, per U.S. gallon -----	8.6 lbs
Foam -----	Low
Stability -----	Excellent
Solubility -----	Complete in water
DOT shipping -----	Not regulated
Freeze Point -----	-35°F
Registration -----	USDA
