High Alkaline Built Laundry Detergent

DESCRIPTION

Prime Time is a built liquid laundry detergent with powerful cleaning agents to remove soils from a wide range of fabric types. Prime Time removes even the most stubborn soils such as oil and grease from lotions, sun-block and more without harming the fabric. This fully formulated product combines detergents, solvents, builders, emulsifiers and brighteners for maximum cleaning efficiency. Effective in both hot and cold water. Designed for use in multi-component injection systems.

DIRECTIONS

For commercial machine: Add 8 to 12 oz per 100 pounds of laundry and adjust concentration as necessary. Actual amount used depends upon soil load and water conditions. Consult your service technician or sales representative for proper usage amounts. Follow equipment manufacturer's recommendations for setting usage.

ADVANTAGES

- Built formula eliminates need for separate builder
- Highly concentrated formula
- Easily removes oils, lotions, grease, make-up, food proteins, dirt and more
- For use in all water conditions and temperatures
- Designed for commercial laundry injection systems
