

Floor Care Specialty

Instant Liquefier

Concentrated Floor Finish Stripper

DESCRIPTION

Instant Liquefier is a concentrated floor finish stripper. The fast acting formula rapidly penetrates and easily dissolves all types of floor finishes. Stripping is achieved often without the use of harsh stripping pads. Saves labor with its simplicity of use. Instant Liquefier can be used with or without a floor machine.

DIRECTIONS

1. Sweep or dust mop the floor to remove any debris.
2. Dilute Instant Liquefier concentrate with cold or warm water. The amount of dilution will depend upon the degree of wax buildup on the floor. Heavy buildup: Dilute 1 part Instant Liquefier with 1 part water. Medium buildup: Dilute 1 part Instant Liquefier with 2 parts water. Light buildup: Dilute 1 part Instant Liquefier with 5 parts water.
3. Apply liberally with a mop to an area small enough so that product will not dry on floor.
4. After several minutes, agitate the wet section with a mop or machine. Remove liquefied floor finish with a mop, squeegee, wet-vacuum or automated floor scrubber.
5. Rinse thoroughly with clear water to remove all old floor finish residue, then mop dry.

ADVANTAGES

- Fast Acting
- Heavy Duty Formula
- Concentrated
- Non-flammable
- Free Rinsing
- Easily Emulsifies All Types of Floor Finish

RECOMMENDED APPLICATIONS

Linoleum	Ceramic Tile
Asphalt Tile	Concrete
Rubber Tile	Flagstone
Vinyl Tile	Terrazzo

APPLICABLE FACILITIES

Schools & Daycares	Hospitals
Nursing Homes	Colleges & Universities
Office Buildings	Retail Stores & Outlets
Grocery Stores	Showrooms

TYPICAL PRODUCT SPECIFICATIONS

Appearance	Green liquid
Scent	Typical
pH	13.5
Weight, per U.S. gallon	8.67 lbs.
Specific gravity	1.04
Viscosity	Water Thin
Foam	Low
Flashpoint	175°F
Emulsification	Excellent
Rinsability	Excellent
Stability	Excellent
Solubility	Complete
DOT shipping	Corrosive
Max. Dilution Ratio	1:5 with water
